

## Highlights

### Mobile Broadband

Share an HSPA+ connection with multiple Wi-Fi devices such as smartphones, tablets, PCs, game systems, and more

### Stay Safe

Uses a built-in firewall and industry-standard WPA/WPA2 security protocols to keep your data safe

### Go Anywhere

Small enough to fit in your pocket, and the rechargeable battery means you're not tied to a wall outlet

## DWR-730

# HSPA+ Mobile Router

## Features

### Connectivity

- Uses a USIM card to connect to the Internet
- 802.11b/g certified, and compatible with 802.11n devices
- microSD card slot to access your storage
- USB 2.0 port for easy charging

### Portability

- Up to six hours of battery in one charge so you can connect more and wait less
- Small size lets you drop it in a purse or pocket and take it wherever you go
- Supports Wi-Fi off-loading technology

### Security

- WPA/WPA2 Wi-Fi security protocols provide the latest in wireless security
- Built-in firewall keeps unwanted connections out
- Wi-Fi Protected Setup (WPS) for one-touch secure setup with other devices

### Share

- Fast broadband download speeds
- Share files over Wi-Fi using SAMBA technology

### Compatibility

- Works with different OS platforms including MacOS, Windows, and Linux

D-Link's DWR-730 HSPA+ Mobile Router uses your HSPA+ Internet connection to give you a simple and fast Wi-Fi network anywhere you need one. Instead of being confined to one Internet-connected device through a USB dongle, the DWR-730 allows you to create and share Wi-Fi hotspots. The convenient size means you can use it to share your connection anywhere; use it in a cafe to send e-mails while your friend reads the news, or at the airport so your coworkers can chat with customers while waiting for your plane.

## Connect Anywhere

Simply insert your data-enabled SIM card, and this handy device lets family and friends in on the fun. The DWR-730 gets you connected when an impromptu network must be set up, allowing you to share not just an Internet connection but also all your favorite files on your microSD card and other network devices. Show vacation pictures to your family while uploading them to your favorite social media, or distribute notes to your team before the big meeting. The HSPA+ Mobile Router lets you connect with others and share what's important to you while you're on the go.

## Flexible Usage

The DWR-730 HSPA+ Mobile Router is easy-to-use and includes powerful features. You can access the contents of your microSD card, allowing you to send pictures or other files to your PC and then upload them to the web. Wi-Fi Protected Setup (WPS) lets you create a Wi-Fi network that uses top-of-the-line security with just the touch of a button. The rechargeable 2000 mAh Li-ion battery allows you to stay connected for long periods of time, and Universal Plug and Play means there's no complicated software to install. Getting online with the DWR-730 HSPA+ Mobile Router is quick, easy, and convenient.

Technical Specifications		
General		
GSM/GPRS/EDGE band	<ul style="list-style-type: none"> <li>• Quad-Band : 850/900/1800/1900 MHz</li> <li>• Power Class 4 (+33 dBm, 850/900 MHz)</li> </ul>	<ul style="list-style-type: none"> <li>• Power Class 1 (+30 dBm, 1800/1900 MHz)</li> </ul>

<sup>1</sup> Supported frequency band is dependent upon regional hardware version.

<sup>2</sup> Data rates are theoretical. Data transfer rate depends on network capacity and signal strength.
